

China-Oel®

Headache Roll-On

Information leaflet:
information for the user

Medical device

- to alleviate headaches and feelings of tension
- for use on the temples, forehead and neck
- pleasantly cooling.

Headaches and tension can have many causes. But perhaps you don't always want to reach instantly for the painkillers and would prefer effective alternatives. In traditional Chinese medicine (TCM), headaches and migraines are believed to be caused by congestions of energy and tension. With acupressure, you can alleviate headaches and migraines and shorten their duration.

The China-Oel® Headache Roll-on employs a manual method which is based on the fundamentals of acupressure. This involves massaging the acupressure points and cooling the temples, forehead and neck. This alleviates headaches and tension in the physical way.

Ingredients:

Water, denatured ethanol, macroglycerol hydroxystearate, peppermint oil, glycerine, carbomer, triethylamine, citric acid

Instructions:

Apply using gentle pressure on temples, forehead or neck several times a day, as needed.

If no improvement is experienced after 2 hours, stop using.

Precautions, information and use:

Do not use on eyes, severely damaged skin, open wounds or mucous membranes. This medicinal product is not suitable for children under 6 years of age because it can cause bronchospasms and asthma-like conditions.

If no improvement is experienced within seven days, seek medical advice

Store out of reach of children.

Do not use past expiry date.

Store properly sealed.

If you experience sensitivity to any of the ingredients, stop using Chiana® Headache Roll-on.

Contents: 15 ml
